

PANTONE® PLASTICS

transparent selector

735 Colors

The **PANTONE Plastics Color System™** is a comprehensive color reference system for the selection, specification, production and control of color in plastics.

This PANTONE PLASTICS transparent selector consists of two binders containing 735 transparent polystyrene chips on 23 pages.

The palette contains a selection of frequently used colors in the manufacture of transparent plastic materials and products. Each color is uniquely identified with its own PANTONE Plastics Color System Reference Number.
