

RHS Colour Chart - Sixth Edition 2015 with 916 Colours in 4 Fandecks 20 new Colours - now all colours with code and colour name

Liste mit Farbnummern und Farbnamen / 6. Auflage 2015 - Seite 1 / 9

RHS Colour Chart - Neue Auflage 2015

Neue, überarbeitete Auflage

- Sixth Edition 2015 mit 20 neuen Farben

Set mit 4 Farbfächern der Royal Horticultural Society
(Königliche Gartenbaugesellschaft)

Das Farbfächer-Set für Pflanzen, Blüten und Früchte ist
das Standardwerk zur Pflanzenfarberkennung.

Die Farbtafeln der RHS wurden zur Bestimmung der
Farben von Blüten und Früchten entwickelt und erstmals
1961 veröffentlicht. Die aktuelle 6. Auflage 2015 mit
20 neuen Farben wurde entgegen der älteren Versionen
nicht mehr im Rasterverfahren, sondern mit monochromen
Sonderfarben gedruckt, so dass jetzt genauere und
haltbare Farbflächen vorliegen.

Die RHS Colour Charts sind für die Bestimmung der Far-
ben von Blüten und Früchten unentbehrlich. Mit ihnen
lassen sich Farbvariationen innerhalb einer Art oder im
Verlauf der Blütezeit vergleichen und die Grundfarbe
auch dann bestimmen, wenn sie von einem Flaum über-
zogen sein sollte. Die Tafeln sind ebenfalls hilfreich, um
Mehrfarbigkeit, Flecken und farbige Rippen sowie die
Schattierung und Farbvariation von Stielen zu beschrei-
ben.

- 916 Farben, aufgeteilt auf 4 handliche Farbfächer,
sortiert nach 4 Farbgruppen und 29 Untergruppen
- Farbfeldgröße 60 x 32 mm
- alle Farben haben eine Nummer und jetzt auch
einen Namen
- jede Farbfläche mit Lochstanzung für sicheren
Farbvergleich
- robuste Kunststoffbox zum Schutz der Fächer im Freien
- Fächermaß jeweils: 60 x 188 mm
- Anwendungshinweise in Deutsch, Englisch,
Französisch, Holländisch, Russisch und Japanisch

In der Auflage 2015 gibt es 20 neue Farben.

Neue oder veränderte Farben haben
die Kennung N bzw. NN.

Eine Broschüre mit ausführlichen Erklärungen
und einer Gebrauchsanleitung liegt der
Fächerbox bei.
